

“The Magnetic Finger”

Casper Terpinski

A stockbroker, hot rod enthusiast, and inventor/entrepreneur, Casper Terpinski will be our guest speaker for August. He will speak on his invention, “The Magnetic Finger”.

While working under the dash of his car trying to install small nuts where access was extremely limited, Mr. Terpinski wondered if there was a way for easy installation by being able to hold the nuts on his finger and thus, the Magnetic Finger was born. The Magnetic Finger is presently patent pending and on the market. Visit his website at www.magneticfinger.com.

Mr. Terpinski will present valuable information acquired during the development and marketing stages of his invention.

Also, please take this opportunity to pay your annual dues, if needed, (\$20/\$85 Corporate), thanks!
