

## Transforming Space Technology Into Commercial Products Mark Mitchell

Mark Mitchell, Program Manager for the Space Alliance Technology Outreach Program (SATOP) will speak on how this State of Texas-funded program can be of assistance to independent inventors, small businesses, startups, and entrepreneurs located across the state. SATOP aims to assist small businesses and entrepreneurs with the goal of creating new jobs, new products for the market, capital investment, and facility expansion. Mark will also present examples of how SATOP has provided key engineering, scientific and technological assistance to inventors which in-turn played a major role in helping their products become successful.

For inventors who require solutions such as material recommendations, assembly/production processes, structural analysis, and much more, SATOP offers up to 40 FREE hours of technical assistance from our volunteer engineers. This is made possible through our Alliance Partners that consist of the NASA Johnson Space Center, aerospace companies and educational institutions.

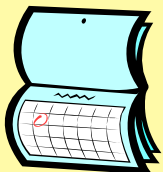

For inventors who require extensive technical assistance, SATOP through its partnership with the Texas A&M University's Engineering Capstone Design Program, can submit viable projects for small businesses into the Capstone Program to receive design solutions and academic prototypes, at NO COST to the small business. Your invention or product, regardless of which program applies to you, does not have to be high tech or space related in order to receive FREE technical assistance.

SATOP stands ready to empower small businesses, startups, and entrepreneurs throughout Texas by providing invaluable FREE technical assistance.

For more information, explore our Success Story page on our website at [www.satop.space/success-stories](http://www.satop.space/success-stories) for a comprehensive showcase of the positive impact we have had on small businesses and their ventures.

**NOTE:** This will be an off-site [Zoom](#) presentation. Watch it on your computer or cell phone. See [www.alamoinventors.org](http://www.alamoinventors.org) to register for the Zoom presentation.

[Join/Renew](#) Alamo Inventors annual membership (\$25 Individual/\$95 Corporate). Thanks!

**Wednesday, February 14, 2024**

**6:00 – 6:30 - Q&A; 6:30-8:00 PM – Presentation**

**See Note Above.**

**Public Invited**

Alamo Inventors, Inc. is a 501(c)3 non-profit corporation made up of local area engineers, business people, professionals, students, faculty and people from all walks of life. Anyone interested in inventing and/or business and product development is welcome to attend and become a member.
