INVENT SAN ANTONIO!

“Innovative Cooling System for Automobiles”

Tom Collard (6:15pm - 7:00pm*)

Tom Collard is a retired engineer, and has designed, developed, and manufactured a new innovative efficient cooling system for today's automobiles.

This product has great potential for saving energy and costs of operating a cooling system in a modern automobile. With a brand new automotive manufacturing plant in San Antonio, and the skyrocketing price of gas, this may be a timely product.

Come hear Tom's story of how he "figured it out" using mathematical models to improve upon today's modern car cooling system.

“Gadget Guys - ‘Win a Free Tradeshow Booth’ Contest”

Drew Taylor and Richard Rodriguez (7:00pm - 7:45pm*)

The Gadget Guys are hosting a contest to win a trade show booth at the upcoming Minnesota Inventors Congress in Redwood Falls, MN to be held on June 9, 10, & 11th.

Contestants will display their inventions and a distinguished panel of judges and the audience will help select the winner. Come out and vote for your favorite invention or inventor!

Wednesday, May 10th, 2006

5:30-6:15 PM - Networking 6:15-8:00 PM* - Presentations

San Antonio Technology Center

3463 Magic Drive

(North of I-410 Between Callaghan and Fredericksburg Roads)

Public Invited

The Technology Advocates of San Antonio (TASA) Special Interest Group (SIG) for Inventors and Entrepreneurs is a non-profit organization made up of local area engineers, business people, professionals, students, faculty and people from all walks of life. Anyone interested in inventing and/or business and product development is welcome to attend and become a member.
