

## The Patent is Simply the Beginning...

Ruben Zamorano

Mr. Ruben Zamorano, President of Diabetica Solutions, [www.temptouch.com](http://www.temptouch.com), is our speaker for May and will speak on "The Patent is Simply the Beginning...". In terms of product development, the initial idea is just the start, as much more must be accomplished. Having to execute a business plan in order to carry the idea forward is the key. An intellectual property idea is simply a concept. The execution of turning that idea into a product with later market entry is paramount.

Mr. Zamorano is a serial entrepreneur with more than 24 years of experience in the medical device and pharmaceutical industries. His success in engaging angel, state, federal and venture capital investors has led to his role in co-founding AmSwiss Pharmaceuticals, LifeQuest Medical (LQMD-NASDAQ) and helping to begin Vidacare Inc. Mr. Zamorano's entrepreneurial mind-set allows him to see opportunities in technology for greater utility across various platforms. Mr. Zamorano earned a Master of Public Health, from the University of California, Berkeley, CA; a Master of Social Work from the University of Michigan, Ann Arbor, MI; and a Bachelor of Arts from the University of Texas, Austin, TX. Additionally, Mr. Zamorano holds four patents for medical devices.
