

Idea To Invention: What You Need To Know To Cash In On Your Invention

Patricia Nolan-Brown

Patricia Nolan-Brown will be our speaker for November 2014 and will speak on *Idea To Invention: What You Need To Know To Cash In On Your Invention*. Her presentation is based on her new book, *Idea To Invention*, which breaks down the invention process into six simple steps and identifies 6 important personality traits for success.

Patricia has been inventing and marketing problem solving products for 24 years. Among her many inventions is a best selling car seat mirror, sold internationally, which enables drivers to see infants placed in rear-facing car seats. She has sold millions of products and holds multiple patents and registered trademarks.

In addition to being a serial inventor, coach and author, she is a video blogger and motivational speaker for widely diverse groups: from Fortune 500 CEOs to grade school science fair hopefuls. She has demystified the invention process for thousands of people and helped them convert their ideas into must have merchandise. Visit her website at www.patricianolanbrown.com and note the video on the lower left hand side of the page. Also, see how she invented the rear-facing car seat mirror at goo.gl/HS7hY7.

Her business savvy and warm, often humorous style have made Patricia a popular guest on radio shows from Austin, TX to New Zealand. She and her inventions have also been featured in many newspapers, national magazines and on TV newscasts.

Also, please take this opportunity to pay your annual dues (\$25/\$95 Corporate), thanks!

Wednesday, November 12, 2014

5:30-6:30 Networking 6:30-8:00 PM - Presentation

San Antonio Technology Center

3463 Magic Drive

(North of I-410 Between Callaghan and Fredericksburg Roads)
