

“GIS for Business and Research 2 Reality”

Pamela Colby

A robotics enthusiast, an entrepreneur and soon to be PhD in biomedical engineering, Pamela Colby, CEO of Technology Fast Forward, Inc., will be our guest speaker for October. She will speak on Geographic Information Systems (GIS) and “Research 2 Reality” – Rapid Prototyping.

Ms. Colby will explain how GIS uses geography based intelligence to answer questions essential to the success of EVERY BUSINESS. Questions answered by GIS include: where are my customers; which geographies should marketing dollars be spent for maximum ROI; and how do buying trends compare across geographies? **Show me the money is no longer just a movie phrase!** Also, Ms. Colby will discuss how new rapid prototyping methods can assist inventors in bringing their ideas to reality expeditiously.

Visit Technology Fast Forward at www.technologyffwd.com.

Also, please take this opportunity to pay your annual dues, if needed, (\$20/\$85 Corporate), thanks!

Wednesday, Oct. 8, 2008
