

“The Invention Process: From Neophyte to Patent Pending”

Bob Rice

A pilot, retired photographer, and inventor/entrepreneur, Bob Rice will be our guest speaker for August. He will speak on the development of his invention, Mr. Spenser.

Using plastic wrap in the kitchen to cover food is a tasking problem. To make the use of plastic wrap a convenient and painless process, Mr. Rice developed four unique plastic wrap dispensers that not only dispense plastic wrap but aluminum foil as well. The innovative design of the dispensers permits their installation and use in unused kitchen space. Visit Mr. Rice’s website at www.mrdspenser.com.

Mr. Rice will present valuable information acquired during the development stages of his invention.

Also, please take this opportunity to pay your annual dues, if needed, (\$20/\$85 Corporate), thanks!

Wednesday, Sept. 10, 2008

5:30-6:30 PM - Networking 6:30-8:00 PM - Presentation

San Antonio Technology Center

3463 Magic Drive

(North of I-410 Between Callaghan and Fredericksburg Roads)

Public Invited
