

## Unlock Your Inventive Potential Alan Amron

Join us for an interactive discussion with renowned inventor Alan Amron, creator of the first battery operated water gun toys, the Digital Photo Wallet for Nikon camera, the first ever Sticky Note known today as the Post-it note by 3M, first down laser line for NFL football and the Dynamic Barcode that changes periodically to prevent digital ticket fraud presently being used by all digital ticketing companies worldwide.

In this meeting, you'll learn:

- \* Proven invention strategies: Discover Alan's unique approach to brainstorming, designing and developing successful products.
- \* Protecting your ideas: Get expert advice on patents, trademarks and other intellectual property rights.
- \* Bringing your invention to market: Explore licensing, manufacturing and marketing strategies for your inventions.
- \* Q&A with Alan: Get personalized answers to your specific questions.

Alan has 45 years experience in product innovation and meaningful change in business performance through product improvements. As an Inventor, his work has been awarded over 40 United States utility patents which have grossed well over \$250M in total revenue.

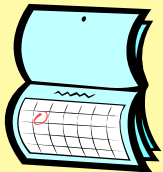

Don't miss this opportunity to gain valuable insights and connect with fellow inventors!
